TITLE: Humor and Jewish Humor: How They Work

ABSTRACT (Caveats Instead):

1. A lecture about aesthetics is not necessarily a beautiful lecture. A lecture about humor is not a humorous lecture. Try reading Freud's, "Jokes and their Relation to the Unconscious" without falling into a deep sleep. Its not for laughing.
2. Freud was right. It is about sex and aggression. Children and squeamish adults should not be admitted.
3. You need not be Jewish, but it helps, or be married to one, or some other similar complexity.
